Additions.

## SLC and Library create Brave New World!

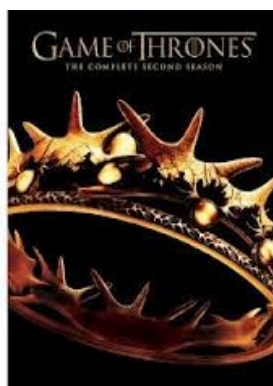

Recently the Student Leadership Committee approved student funds to be used to purchase DVDs for the libraries of NGTC. Library Director Christiania Teasley used the funds to purchase popular films and then distributed them to the three libraries.

A total of \$500.00 was allocated by the SLC for the purchase of the films. The focus of the purchase was to provide students with more choices for their viewing pleasure.

Among the titles purchased were *Game of Thrones: Season 2*; *Here Comes the Boom*; *Argo* (Academy Award for Best Picture); *Sinister*; *The Dark Knight Rises*; and *TED*. Older films added to the catalog included *Gremlins*,

*The Shining*, *A Clockwork Orange*, and *One Flew Over the Cuckoo's Nest*.

With the addition of these

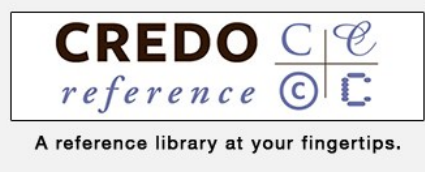

**Game of Thrones Season 2**

**One of the many new additions to the library DVD collection**

films to the library collection, the students have a wider variety of entertainment options that allow for some much needed down time between classes, projects, and test taking.

The SLC and librarians may work together in the future to provide more funding to expand the DVD collections for student use. If you have a request, submit it the library; we are always looking for input from students, faculty, and staff on quality material to add to the library to make the collection more diverse for our patrons.

CREDO reference is an electronic database of books that can aid in research. The database has 100 books with facts and data. The books are accessible from the library resource page. Subjects of current interest include: gun control, along with medical

reference, CIA World Facts, dictionaries, and encyclopedias.

Done with your most current research project (finally)? Stop and relax by reading the *Encyclopedia of Urban Legends* and learn about *The Disappearing Hitchhiker*

and *The Hook Hand Mental Patient* and the teens in the woods...at night! If urban legends aren't for you, check out *Mosby's Handbook of Herbs and Natural Supplements* for natural healing. A wide variety of material is available for your reading pleasure.

## NGTC Library Survey...Accomplished

A big thank you goes out to the 200+ students that participated in the library survey conducted with the help of [Survey Monkey](#).

The survey covered how students used the library and ways to improve the student experience in the library. The results were overwhelmingly positive with students requesting more fiction in the library and a wider selection of

new films. Students were happy with the library hours and with the skilled and knowledgeable library staff's willingness to help with research, technology issues, and locating materials for student use.

The Blairsville students were rewarded for their participation in the survey with a Harlem Shake video featuring their librarian Chris. Several students and

staff helped with the making of the video. If you would like to see the video, visit Chris.

If you have a suggestion for material you would like to see in the library, stop in and talk to your friendly neighborhood librarians, if they are not busy doing the Harlem Shake.

## Can I borrow a book from another NGTC Library without leaving my home (campus)?

Yes you can—and more! If you see something in the library's [online catalog](#) but it's in another campus library, please contact a library staffer to request a library item be sent to your home

campus library. Want to borrow a book that's not in the online catalog? Never fear! The Library is here! Library staff can also borrow books from another library through WorldCat. The

Interlibrary Loan (ILL) system allows libraries around the world to lend to and borrow from each other. There is no charge to use either service. Last year the NGTC Libraries borrowed and

loaned almost 300 books including loaning two to library users in Europe!

**Check us out!**

**We're here to help you succeed!** The mission of the NGTC Library is to provide quality resources and services that support and enhance the total educational program of the College. This is accomplished by ensuring that the NGTC library is adequate and accessible for all students, staff and faculty; and by providing adequate information resources in a variety of formats as well as instruction in how to use these resources efficiently. And

we do it all with a smile!
